

JENNY

Having a tan is the way forward!

Who wants to look pale and sickly when you can have a tan like Michelle Keegan or Mark Wright and look all nice and healthy?! Plus, all my mates are tanned and I'm not being the pale one – even with the Valencia Insta filter!

I use the sunbeds to keep topped up but a few of my mates use fake tan and tell me to use it too. They reckon it's safer, but I only use the beds for a few minutes a week, so it can't be that bad!

STEVIE

Why might Jenny and Stevie feel the need to look like Michelle Keegan and Mark Wright in terms of wanting to be tanned all the time?
