

**TRANSLATIONAL RESEARCH CALL ADVISORY GROUP**

<b>Name</b>	<b>Institution</b>	<b>Position/Area of expertise/interest</b>
Professor Aras Kadioglu	University of Liverpool	Professor of Bacterial Pathogenesis, Clinical Infection, Microbiology & Immunology
Dr Nikki Copeland	Lancaster University	Senior Lecturer in Biomedicine, DNA replication, DNA replication stress and cancer biology
Professor Andrew Pettitt	University of Liverpool	Ronald Finn Professor of Experimental Medicine and Honorary Consultant Haematologist, Molecular & Clinical Cancer Medicine
Dr Joseph Sacco	University of Liverpool	Molecular & Clinical Cancer Medicine, Subspeciality lead for Head and Neck Cancer, NWC CRN
Professor Ken Mills	Queen's University Belfast	My interests are in translational research in acute myeloid leukaemia (AML) and myelodysplastic syndrome (MDS) with the aim of improving diagnosis, prognosis and prediction of therapeutic responses through the identification of novel and repurposed therapies.
Dr Adam Linley	University of Liverpool	Molecular & Physiology Cell Signalling, Cell Signalling in Health and Disease
Professor Martin Dyer	University of Leicester	Professor of Haemato-Oncology and Honorary Consultant Physician, Development and assessment of new targeted therapies for haematologic malignancies
Professor Chris Twelves	University of Leeds	Professor of Clinical Cancer Pharmacology and Oncology, Early and late phase clinical cancer trials Cancer pharmacology Breast cancer
Dr Jennifer Munkley	Newcastle University	Prostate cancer treatment and diagnosis, Glycosylation in cancer
Dr Leonie Unterholzner	Lancaster University	Biomedical and Life Sciences Senior Lecturer, DNA recognition and immune response in cancer
Dr Jason Parsons	University of Liverpool	Senior Lecturer and Research Group Leader, Molecular & Clinical Cancer Medicine, Biochemistry of DNA damage repair
